16:00 -17:00	Final Pitches	Teams
17:00-17:10	Awards Ceremony (Top 3 teams)	Prof Langerman & Charlotte

Ai Lab

STRONGER TOGETHER. BUILDING WHAT'S NEXT.

Vodacom/UJ/AWS AI for Africa Challenge

Collaborate | Innovate | Impact

01

EDUCATION

Ubuntu Tutor

Offline, multilingual AI tutor that adapts lessons, identifies learning gaps and supports teachers in under-resourced schools.

IMPACT

02

EDUCATION

Dropout Early Support

Flags learner attendance and performance risk early, then recommends human-led interventions before learners disengage.

IMPACT

03

CONNECTED HEALTH

Clinic Flow Copilot

An AI solution that guides citizens to the right healthcare service, trusted information or emergency support in their preferred language.

IMPACT

04

MATERNAL HEALTH

MamaCare Risk Navigator

Detects high-risk pregnancy signals from routine data and connects mothers to timely, local care and follow-up.

IMPACT

05

COMMUNITY SAFETY

SHE-Shield Guardian – Freedom to Move

An AI solution that identifies emerging safety threats and high-risk locations to enable earlier, coordinated interventions that protect women.

06

GBV & FEMICIDE

SHE-SHIELD Response

Links missing-person, case and hotspot patterns to accelerate investigations and coordinated response, beyond a panic button.

IMPACT

07

YOUTH EMPLOYMENT

Skills-to-Work Bridge

Builds verified skills profiles and matches young people to learnerships, entry-level roles and entrepreneurship support.

IMPACT

08

ACCESSIBILITY & INCLUSION

VoiceLens AI

Enable visually impaired citizens to understand their surroundings and documents using only a mobile phone.

IMPACT

09

WATER SECURITY

Waterwatch AI

Give municipal teams an early, explainable warning of where a leak, pressure failure or supply disruption may occur, so field teams can inspect and repair the highest-impact risks before communities lose access.

IMPACT

10

AGRICULTURE

Mzansi Farmer AI

An AI solution that gives small-scale farmers personalised crop, weather, pest and market guidance to improve productivity and livelihoods.
